■ Important Announcement – AIITS 2026 Launching Soon!

We hope you are doing well and in great spirits.

We are excited to announce that our AIITS 2026 Test Series is officially launching in the first week of January. This year, we are providing a total of 12 high–quality Mock Tests, which include:

• 6 Part-Syllabus Mock Tests

• 6 Full Syllabus Mock Tests

Our responsibility is to design a premium and result-oriented test series strictly based on the latest IAT 2026 syllabus, following the official exam pattern. The difficulty level will be aligned with IAT PYQs +1 level. Therefore, it is mandatory to analyze all previous year questions (PYQs) before creating new questions.

Each mock test must include:

✔■ Question Paper

✔■ Answer Key

✔■ Detailed written solutions

Note: Your questions will be provided to other mentors for recorded video solutions, so please ensure the content is prepared, proof-checked, and finalized before submission.

The detailed time-table, syllabus, portion distribution, and mentor allocation for each test will be shared shortly.

Team Structure & Coordination

Coordinator:

• Shivam TVM – Physics & Biology

Assistant Team:

• Shruti & Nishu (Support)

Subject Leads:

• Raj TVM – Mathematics & Chemistry

Support Assistants:

• Pawan & Pratiksha

We aim to complete all 12 mock tests by the end of February, ensuring quality, accuracy, and timely execution.

Let's work together to deliver the best preparation experience for IAT Aspirants.

Thank you and best wishes to the entire team!
